

Managing valuable items at school

Students are asked not to bring large sums of money or expensive items to school unless prior arrangements have been made with the class teacher. This includes precious toys or sports equipment. Should the presence of such items hinder the delivery of learning programs or positive playground interactions, teachers will act to reduce such distraction. When at school children are encouraged to interact and play with each other and enjoy the school gardens and playground, rather than gather around or focus on expensive or special toys.

Whilst the school recognises the use of mobile phones in some families for communication, mobile phones must be deposited at the front office in the morning before school and should not be used during school hours. Students who need to contact family members should discuss their need with their teacher or front office staff. Parents can contact children anytime or organise to leave a message for children by contacting the front office.

Please note: The school is not offering to provide a lockable box for the storage of these valuable items and is unable to take responsibility for loss or breakage of these items.
