

Bicycles and Wheels

Garran Primary School encourages students to actively travel to and from school. This travel includes the use of wheeled devices. To ensure the safety of our students and community members we ask that all students follow the below guidelines when using a wheeled device. We ask that parents and carers also model the below guidelines to students.

School staff will talk with children about road and riding safety at school. Whilst the care and concern of every child is important to us, the school cannot accept any responsibility for injuries resulting from bike riding to and from school or any responsibility for loss or damage to the bicycle whilst on school premises.

To bring a bicycle (scooter, skateboard or wheels) into school grounds, children are asked to;

- Wear a helmet.
- Not use wheeled devices (including skateboards, roller-skates, and scooters) on school hard surfaces or in the school playground at any time.
- Use a security chain/lock to secure their wheeled device in the allocated racks along the southern wall of the Patterson Building.
- Enter and leave the bike storage area from the Eastern end (from the basketball asphalt court end) only.
- Not interfere or play with the bicycles of others stored in the rack area.
- Participate in briefings with teachers about riding safely and road safety
- Ride safely directly to and from school, along a route as discussed with parents.
- Enjoy and have fun riding!
